

## What will the UK's Retail Payments look like in 2030?

Date: Tuesday, 10<sup>th</sup> February 2026

Venue: **Squire Patton Boggs, 60 London Wall, London EC2M 5TQ**

Start: **1.30pm registrations for 2.00pm start**

The UK has been through a period where, despite great effort and significant investment, the retail payments services landscape has changed little for many years. In 2026 there will be further significant regulatory pressures on payment services companies and e-money institutions that will shape the future of the industry.

AI will affect how future payment services operate and how we live our lives but, as the Forum discussed in 2025, the precise nature of the change is uncertain. The card schemes are continuing to innovate and to shape the payment landscape.

- How will the changes they are driving affect payment services?
- Who will the winners and losers be, and will consumers or retailers feel the benefits?

The Forum will bring together speakers from relevant sectors to talk about how they hope the industry will have evolved and what benefits this will deliver to the UK's economy and society.

## Meeting Agenda

Time	Speaker
1.30pm	<i>Arrivals, registration and refreshments</i>
2.00	Adrian Cannon, <i>Chair</i> , <b>Future Payments Forum</b>
