Introducing the Salto Glass XS Reader Series: Redefining Smart Access Control

Elevate smart access control with the Salto Glass XS Reader's stunning design, cutting-edge technology, and unparalleled level of sophistication and security.

[Southam – UK, 27-06-2024] – Salto proudly unveils the Glass XS Reader Series, an innovative line of products that sets a new standard in access control technology for wall readers. This range of wall reader products delivers breathtaking smart access experiences, stylish design, and ultrafine details. The Glass XS Reader Series elevates access control to unparalleled levels, blending elegance, design, and simplicity while ensuring top-tier security.

The new Glass XS Reader, a part of the Salto XS wall reader product portfolio, transforms spaces into sophisticated and enriched environments. With its unique design and cutting-edge technology, it offers users and systems operators an optimal access control experience that is second to none. The Glass XS Reader delivers a complete security solution for situations where control must be boosted by online and real-time access control – including barriers, lifts/elevators, sliding doors, or electronic gates.

“We’re excited to reveal the Glass XS Reader Series, a product that represents the future of access control technology. Through its stunning design and advanced features, the Glass XS Reader offers users a superior level of control and security,” said Sheila Alvarez, UK Marketing Manager at Salto.

Manufactured with top-quality materials, the Glass XS Reader features a highly resistant, scratch-proof tempered glass front panel, ensuring durability with minimal maintenance and fast installation. Its elegant and

modern designs are customizable with a choice of white or black glass fronts, making it ideal for flush mounting indoors and in universal junction boxes.

Key Features of the Glass XS Reader Series include:

- Stylish design: Extra-flat minimalist design – just 4 mm thick
- Panel material: Tempered glass
- Connection to the door controller: 4 wires
- NFC technology and Bluetooth LE for smartphone usage as a card
- MIFARE® DESFire® - iCLASS® compatibility
- Reader status display with light and sound indicators
- Flush mounting in wall with universal mechanism box
- Compatible with Salto KS, Space, and Homelok smart access platforms

With the Salto XS Glass Reader Series, access using your mobile or credentials is simple, fast, and intuitive. By holding your smartphone close to the reader, the door opens seamlessly, providing a magical experience while ensuring only authorized entry.

Experience the cutting edge of access control technology with the Glass XS Reader Series by Salto and elevate your space to a new level of sophistication and security.
